**Our response:**

For awareness, there are no public sewers in the referenced area. I have also checked our case management system and can confirm there have been no recorded flood incidents in this area. Additionally, I have spoken with our local Wastewater Network Team who have confirmed they aren't aware of any historical flooding on this land. As such, we are unable to provide you with any specific information. This approach is in line with Regulation 12(4)(a) of the EIR.
