

Dear [REDACTED]

Thank you for your request for storm overflow discharge data for Millingford Brook. We appreciate your interest, and we want to let you know that your request has been carefully considered in accordance with the Environmental Information Regulations (EIR).

Please see enclosed a copy of the requested data which covers the period 1 April 2025 to present. You can also view this information on our corporate website via [Storm overflow performance | United Utilities](#). For awareness, this is updated on a bi-monthly basis, so the June 2026 data will be uploaded during August 2026.

You can also view our [Storm overflow map | United Utilities - Better Rivers](#) which shares information indicative of activity happening at each storm overflow. All efforts have been made to ensure that the data is as accurate as possible and that sensors and signals are reporting correctly. Nevertheless, data reported on the map is an indicative picture of a storm overflow discharging and will only be confirmed once all subsequent checks, assurance and verification has been completed.

We hope that this response answers your request. However, if you're not satisfied with how we've handled it, you can request an internal review. To do this, please write to us at Environmental Information Office, Haweswater House, Lingley Mere, Warrington, WA5 3LP or email us at EIRRequests@uuplc.co.uk, addressing your request to [REDACTED], and explaining why you're unhappy with our response. We'll be very happy to review your request and ensure we've done everything we can to assist you.

Any request for an internal review should be made within 40 working days of receipt of this response, and we will reply within 40 working days from receipt of the request for internal review.

Many thanks
[REDACTED]

We'd love to hear your feedback on how we handled your request! If you have a moment, please complete our short survey [here](#) – your input helps us improve our service.
