

Ready to live your future?

We're the water and wastewater company for the whole of the North West, which means it's our job to keep the taps flowing and the toilets flushing for 3 million homes and 200,000 businesses across the region.

From Crewe to Carlisle, our offices and water and wastewater treatment works span the North West of England.

Earn while you learn and be part of a team that delivers vital services to all of our customers across the North West. With a range of roles on offer, you're bound to find your future career.

From operating our pipes and improving water quality, to embracing new technologies and safeguarding the local environment – whether you're in our head office or out on site, there's always plenty going on. Our apprenticeships are jobs with training which allow you to earn while you learn.

We'll make sure you're:

- **Rewarded and recognised** – a starting salary of £18,000, and lots of benefits including driving lessons and discounts on your shopping
- **The best you can be** – you'll get involved in all sorts of training and fun activities with your fellow apprentices
- **Making a difference** – we're a responsible and environmentally-conscious employer, committed to developing our people in state-of-the-art facilities
- **Part of the family** – we'll help you settle in quickly, and start to learn from your colleagues and teammates
